

Thanks to our artistic background we have been able to create a fertile ground for building imaginative proposals.

Where:
MX / Messico / Oaxaca

Website:
www.visibleproject.org/blog/project/lugar-comun-oaxaca-mexico/

1) Building a hall for meetings, workshops, talks and film screenings with help from volunteers.2) Implementing "guelaguetzas" (a model to create local and trans-territorial community bonds through open reciprocity), "mayordomías" (the development of communal solutions to individual problems), and a "moneylender service" (Lugar Común lends money while borrowers pay the interests working there).3) Setting up a communal orchard. We are currently designing a model for exchanging produced vegetables.

We work with a network of educational institutions and local initiatives such as: Doen Foundation, ComitÃ©s de Vida Vecinal, Universidad de las AmÃ©ricas, Escuela de Artes Visuales, â€œLa Esmeraldaâ€, Universidad Iberoamericana, UABJO, ecoconstructores and Fondo Nacional para la Cultura y las Artes.
